PROFILE

Master's student in Games Technology at ITU Copenhagen with a Software Development background. Passionate about game development and committed to continuously learning new technologies and techniques to create engaging player experiences.

EXPERIENCE

ACADEMIC - GAMES

- As part of Making Games course in 1st semester, we created ***Lucid***, a cosmic horror puzzle game, in Unity. I worked primarily as a programmer and narrative designer in a team of 6.
- For Games Programming, we developed ***ChaosRumble***, a viking slap game, using our own custom game engine in a team of 3. I focused on assets and gameplay programming.
- In Play Lab, out team of 5 prototyped ***Crickflip***, transforming a joke about a reality-flipping cricket into a playable game. I served as lead gameplay programmer and producer.

WORK

- I have worked as a ***Teaching Assistant*** throughout my studies; some courses includes ***Programming for Designers (Unity and C#)***, ***Software & AI Studies (AI)*** and ***Introduction to Databases (SQL)***.

VOLUNTEER WORK

CHAIRPERSON & VOLUNTEER - ITU LAN

Chairperson: 2022 - 2026 | Volunteer: 2021 - 2026

- **Responsible** for hosting LAN event twice each year, where we host LAN events on campus such as tournaments.
- **Manage** members of ITU LAN (30+ active members).

ABOUT MYSELF

- ***Adaptable*** *and* ***collaborative****, thriving in team-oriented environments.*
- *Enthusiastic about learning and growing within a professional setting.*
- *Open to challenges and* ***quick to adapt*** *to new opportunities.*
- *Skilled at simplifying concepts and explaining ideas, with a passion for mentoring and teaching others.*
- ***Creative thinker*** *with experience in design and drawing, bringing originality to projects.*
